Parcel – packed and/or sealed tangible assets or correspondence delivered by shippers.

Scrap metal – various metal objects (structures, units, pipelines, etc.), vehicles, metal devices, tools, other equipment, parts thereof, dismantled power cables, residues of metal assembly components or materials, metal filings, small pieces of metal that can no longer

be used for their purpose in construction, assembly, installation, maintenance or other activity due to wear-and-tear or any other reasons.

Waste – disposable household and industrial waste (except for scrap metal).

Materials – things, raw materials (except for feedstock used in production of petroleum products) used/consumed for the purpose of works or services, including but not limited to construction, chemical, organic materials and substances, spare parts, etc. (with the exclusion of equipment, machinery, other means of work).

Authorized employee – employee who according to procedure of the Company or on the basis of regulatory or other document issued by the manager of other legal entity is authorized to issue and sign tangible asset shipment documents or sign requests for passes to security facilities of the Company.

Shipment documents – documents proving actual carriage (shipment) of tangible assets including but not limited to the ones listed in these Regulations.

Waybill – document proving actual carriage (shipment) of tangible assets.

VAT invoice (invoice) – document compliant with mandatory requirements set by the Law on Value Added Tax of the Republic of Lithuania which is used to formalize the supply of things or provision of services.

Request for permit to keep construction trailers in the territory of ORLEN Lietuva – document in the form established herein (Annex 3) which is executed for the shipment of construction trailers to security facilities of the Company.

List of equipment of special vehicles – document in the form established herein (Annex 4) describing equipment contained in special vehicles of emergency or other special forces which is used in respective maintenance, repair or rescue operations.

CMR waybill – waybill for international transportation of cargoes by roads.

Road tank – tank fixed or attached to a vehicle designed for carriage of various substances.

Average weight of road tank – average weight of an empty road tank determined by weighing the empty road tank at least three times and deriving arithmetic mean of the three weight values.

Container weight – weight of an empty road tank or rail tank-car.

Weighing certificate – document where weighed object and its identification data, weighing date, time and place, full name and job title of employee who performed the weighing are indicated. Weighing certificate is signed by the employee who performed the weighing.

Measuring report – document where the measured object and its identification data, measured and calculated values, measuring date, time and place, measuring devices, names and job titles of employees who performed and/or witnessed the measuring are

indicated. Measuring report is signed by the employees who performed and/or witnessed the measuring.

Emergency – condition that arises from natural, technical, ecological, social or other factors and poses sudden and considerable danger to human life and health, Company's assets and environment, or results in human death or injuries or huge material losses.

Extraordinary situation – single or grouped deliberate, illegal, unauthorized actions violating internal order of the Company and/or aimed to discontinue (disorder) the Company's operation or overtake its property, take hostages or any other deliberate actions (mass disturbances) resulting in severe violation of public order and/or confrontation with officers.

CHAPTER III ORGANIZATION OF PASS SYSTEM

6. Pass system in the Company is organized as follows:

6.1. Pass system pursuant to these Regulations and other applicable legal acts is organized in the Company by its Director of Control and Security. Director of Security establishes the forms of documents evidencing actual issue of passes, requests for entry passes, standard rights of the Company's and contractors' employees, clients, visitors in terms of access to respective buildings, premises, rooms, restricted access areas of security facility, approves internal documents of the Company required for implementation of these Regulations, lists of restricted access areas, makes decisions regarding restriction of access to security facilities of the Company and withdrawal of passes.

6.2. Control over the execution of pass system shall be organized by the employee of Control and Security Department assigned by the Director of Control and Security and control itself shall be executed by the employees of Physical Security Group of Control and Security Department.

6.3. Due observation of pass system in the Company is ensured by the employees of entity providing security services to the Company who have the rights and duties prescribed by the Law on the Security of a Person and Property of the Republic of Lithuania as well as security service provision contract.

6.4. Electronic access control system is installed in the Company and its facilities to ensure pass control.

6.5. Issue, change, withdrawal of passes is recorded in the database of access control system of the Company. Personal data used for identification of natural persons is processed for internal administration only as due to exceptional specifics of the business of the Company it is necessary to ensure the security of persons, Company's property and the public in line with international and national legal regulations applicable to protection of personal data.

6.6. To open barriers, doors in control points of access control system as well as for registration of entries/exits personal electromagnetic ID badges to be used by the holder only shall be issued. Every holder of personal electromagnetic ID badge must put ID badge issued to him/her to the badge readers where such are present for entry to the territory and facilities of the Company. It is forbidden to put any irrelevant items or otherwise obstruct the entries into objects of the Company which can be entered or exited only with the use of electromagnetic ID badge.

6.7. Data of access control system shall be collected and stored in the servers and data bases of the Company. Data of entries/exits and personal identification data related to the same shall be stored for 5 (five) years after the last exit by the person from security facility of the Company. Security of data shall be ensured as prescribed by applicable legal acts of the Republic of Lithuania.

6.8. Entry by vehicle into hazardous facility within the security territory of the Company requires special permit which is issued by the head of organizational unit which operates respective hazardous facility or other authorized employee of the Company.

6.9. In case of emergency or field exercise (drill), fire and rescue service and ambulance vehicles with blue/red beacons turned on shall be allowed to pass without checkup and registration.

CHAPTER IV

ORGANIZATION OF ENTRY INTO SECURITY FACILITIES

7. Grounds of issue of entry passes.

7.1. As prescribed by these Regulations, security facility entry passes may be issued if at least one of the below conditions is met:

7.1.1. right to enter security facilities of the Company is set forth in the laws of the Republic of Lithuania;

7.1.2. employment contract between an employee and the Company has been concluded;

7.1.3. contract between contractor, service provider, supplier of goods and the Company has been concluded;

7.1.4. on the basis of contract with contractor, service provider an agreement for the rent of premises is concluded between contractor, service provider and the Company (entry may be limited (assigning accompanying persons, etc.) if contract with contractor, service provider expires or works, services under such contract are no longer executed) or other legal or natural person;

7.1.5. contract between the buyer of petroleum products or other assets and the Company has been concluded;

- 7.1.6. the Company's security facilities are indicated in shipment documents as the place of delivery and unloading and the consignee is: (i) the Company; (ii) contractor (service provider), supplier working in the territory of security facility of the Company; (iii) legal entity that rents premises in the territory of security facility of the Company;
- 7.1.7. lawful interest of the Company.

8. Persons entitled to make decisions concerning issue of passes:

- 8.1. General Director of the Company;
- 8.2. Director of Control and Security of the Company and responsible employee of Control and Security Department assigned by him;
- 8.3. Deputies of the General Director of the Company, Chief Financial Officer of the Company, Directors of the Company and their Deputies within the area assigned to them upon agreement with responsible employee of Control and Security Department;
- 8.4. Company's administrative officials, Head of Executive Office concerning access to administrative, non-production areas within security facilities of the Company by clients and visitors (for max. one working day) upon agreement with responsible employee of Control and Security Department;
- 8.5. Seniors of shift on duty of entity providing security services to the Company on non-working days and working days at night concerning one-off visits of persons to security facilities of the Company on the grounds set forth herein;
- 8.6. Persons specified in § 8.1-8.3 hereof, against respective internal document (order, decree) executed as prescribed by the Company, shall be entitled to delegate decisions concerning issue of passes to their subordinates. Copies of such documents must be handed over to Pass Office.

9. Conditions for issue of passes and organization of meetings with contractors (service providers), suppliers, clients and visitors of the Company.

- 9.1. All persons who wish to obtain passes for entry into security facilities of the Company must familiarize themselves with and observe requirements of conduct established herein and to pass respective occupational safety indoctrination selected according to the purpose of visit. Pass shall be issued only for the term necessary, to the maximum of two years, depending on the purpose of request for pass, term of respective contract, etc. Provision concerning the duration of the validity of pass shall not apply to the employees of the Company.
- 9.2. Pass shall be granted and valid only for specific person or vehicle.
- 9.3. Time of validity of entry pass and the right of its holder to have access to specific premises, buildings, territories, restricted access areas of security facilities of the Company shall depend on the functions, type of work performed by such person, established work schedule and purpose of access.

9.4. Persons under 14 years of age shall not be allowed to enter security facilities of the Company without an accompanying adult employee. Passes to them shall be issued and executed according to general procedure established in these Regulations.

9.5. Meetings with contractors (service providers), suppliers, clients and visitors of the Company can be organized only in meeting rooms 3 and 4 of main administrative building of the Company, meetings rooms of Vilnius Office and administrative building of Būtingė Terminal, unless the purpose of meeting is to discuss technical issues arising from contracts concluded with contractors, service providers. Meeting in any other location than specified above as well as entry to security area of main administrative building of the Company requires prior agreement with the General Director of the Company or Director of Control and Security or other responsible person assigned by them. These limitations shall not apply to the staff of ORLEN CG. Passes to the staff of ORLEN CG shall be issued and executed according to general procedure established herein.

10. Issue of passes to the Company's employees.

10.1. Passes to the Company's employees shall be issued according to notices (information) on employment presented to Pass Office by responsible employees of Human Resources Department where the name and surname, date of birth, position of an employee, organizational unit, payroll number and term of employment contract (if fixed) shall be indicated.

10.2. Passes for vehicles owned by the employees of the Company for entry into the territory of security facilities of the Company shall be issued and changed against the presentation of technical passport of vehicle owned by an employee to the Pass Office of the Company. Such passes may also be issued and changed against presentation of collective request of organizational unit of the Company approved by the head of respective unit. One employee may get maximum two vehicle passes for entry into non-production area of security facilities of the Company.

10.3. Passes for Company vehicles (either owned, leased or possessed on any other grounds) used by the employees of the Company shall be issued on the basis of respective notice of the Director of Business Support or employee authorized by him to the Pass Office.

11. Issue of entry passes to the employees of contractors (service providers), subcontractors.

11.1. Passes for the staff of contractors (service providers), their subcontractors, freight and special vehicles shall be issued against the presentation of written request signed by the authorized employee of respective contractor (service provider) and its subcontractor, if passes are required for the staff of subcontractor, and agreed in writing with the employee of the Company entitled to make decision concerning issue of passes. Forms of requests are provided in Annex 6 and Annex 7 hereto.

11.2. Passes for cars of contractors and subcontractors can be issued in exceptional cases only depending on organizational necessity and type and scope of works to be performed by them.

Vehicle passes for entry into security facilities of the Company shall be issued against presentation of written request signed the authorized manager of respective contractor (service provider) and its subcontractor, if passes are required for the vehicles of subcontractor, and agreed in writing with the employee of the Company entitled to make decision concerning issue of such pass as well as Director of Control and Security or other employee of Control and Security Department assigned by him.

11.3. Request for pass(es) to the employee(s) of contractor (service provider), its subcontractor must contain the following details:

- 11.3.1. name of contractor (service provider);
- 11.3.2. name of subcontractor (if pass for the staff of subcontractor is requested);
- 11.3.3. employee's name and last name, date of birth, position, whether s/he is contractor's or subcontractor's employee;
- 11.3.4. necessary legitimate term of validity of pass;
- 11.3.5. number, date, term of contract concluded with or requisition issued by the Company, other detailed grounds for issue of pass;
- 11.3.6. code of the security facility, territory of the Company (according to Annex 5 hereto).

11.4. Request for vehicle entry pass(es) of contractor (service provider), its subcontractor must contain the following details:

- 11.4.1. name of contractor (service provider);
- 11.4.2. name of subcontractor (if pass for the vehicles of subcontractor is requested);
- 11.4.3. accurate make and model, state registration number, type of vehicle;
- 11.4.4. necessary legitimate term of validity of pass;
- 11.4.5. number, date, term of contract concluded with or requisition issued by the Company, other detailed grounds for issue of pass;
- 11.4.6. code of the security facility, territory of the Company (according to Annex 5 hereto).

12. Issue of passes to officers, clients, visitors, other persons.

12.1. Passes to officers who have statutory right to enter security facilities of the Company shall be issued against the presentation of official service identification cards. Visits of officers of state regulatory authorities within the Company shall be additionally registered in the Correspondence Office as prescribed by the Company.

12.2. One-off passes (for max. one day) for the clients, visitors, other persons shall be issued on the basis of requests issued by the Company's administrative officials, Head of Executive Office and agreed as prescribed by these Regulations which may be e-mailed to the Pass Office to: leidimai@orlenlietuva.lt. Such persons in security facilities of the Company must be accompanied by responsible representative of the Company.

12.3. Passes for the groups of clients, visitors or other persons shall be issued on the basis of collective requests. Such request must be agreed with the Company's director or higher-level superior leading organizational unit which accepts the group indicated in collective request and the General Director or Director of Control and Security or other responsible person assigned by them. Such group(s) in security facilities of the Company must be accompanied by responsible representative(s) of the Company.

12.4. Passes for the representatives of mass media shall be issued only upon additional agreement with the Company's Press Officer.

12.5. Requests for entry passes to clients, visitors, other persons and their vehicles must contain the same details as requests for entry passes to contractors (service providers) and their vehicles.

13. Issue of entry passes to the buyers and carriers of goods, petroleum products.

13.1. One-off entry passes to the staff and vehicles of carriers shipping tangible assets to the territories of security facilities of the Company shall be issued against the presentation of respective shipment documents where the territory of the Company's security facility is indicated as the place of delivery and unloading and the consignee is: (i) the Company; (ii) contractor (service provider), supplier working in the territory of security facility of the Company; (iii) legal entity that rents premises in the territory of security facility of the Company. For entry to delivery/collection points within the Central Warehouse of the Company one-off passes shall be issued to the carriers of goods; in all other cases agreement with Director of Control and Security or person authorized by him shall be required.

13.2. One-off entry passes to the carriers of buyers of petroleum products shall be issued on the basis of notices (orders) presented by Commercial Sales and Logistics Division of the Company.

13.3. One-off entry passes to the buyers of Company's property (other than petroleum products) shall be issued on the basis of notices of the Company's employees responsible for administration of respective property sales contracts.

13.4. Carriers of goods and petroleum products who come to security facilities of the Company periodically may present requests for entry passes for a longer, reasonably required term however to the maximum of two years. Such passes shall be issued only upon conclusion of standard electromagnetic ID badge use agreement with the Company. Request for entry passes must contain the following details:

13.4.1. name of carrier;

13.4.2. employee's surname, name, date of birth, position, employer's name if employed by other, outsourced carrier;

13.4.3. necessary legitimate term of validity of pass;

13.4.4. accurate make and model, state registration number, type of vehicle;

13.4.5. code of the security facility, territory of the Company (according to Annex 5 hereto).

14. Issue of passes for entry to Būtingė Oil Terminal single point mooring (SPM) buoy security zone.

14.1. Long-term passes for entry to Būtingė Oil Terminal single point mooring (SPM) buoy security zone shall be issued to the staff of contractors, surveyors according to general procedure set forth herein on the basis of lists of the staff of contractors, surveyors presented and agreed with the employees of the Company entitled to make decision concerning the issue of passes as set forth herein.

14.2. One-off passes for entry to Būtingė Oil Terminal single point mooring (SPM) buoy security zone when such entry is related to maintenance, operation or inspection of buoy, scientific research or other works related to operation of buoy, shall be issued on the basis of the list of persons agreed with the Head of Pipelines and Terminal Operations Subdivision or Manager of Offshore Terminals and presented to the senior of security shift on duty of Būtingė Oil Terminal. Such list must contain the following details: name of vessel, surnames, names, dates of birth, positions of persons requesting for entry passes, name of legal entity they represent, estimated time of arrival at and departure from security zone, purpose of visit. List may be e-mailed to apsauga.butinge@orlenapsauga.lt or leidimai@orlenlietuva.lt.

14.3. Any entry into Būtingė Oil Terminal single point mooring (SPM) buoy security zone when such entry is not related to the maintenance, operation or inspection of buoy, scientific research or other works related to operation of buoy is forbidden.

15. Issue of restricted access area entry passes.

15.1. Issue of restricted access area entry passes requires additional written agreement with the head of organizational unit which operates respective facility.

15.2. In order to ensure due control of entries into individual restricted access areas of security facility of the Company biometric readers may be installed for the identification of entering persons. Such cases must be reported to Data Protection Officer of the Company. Prior to issue of restricted access area entry passes to persons, it is required to obtain a written consent of each person to the processing of his/her biometric data for this purpose and notify Data Protection Officer of the Company accordingly.

16. Issue, replacement, return of electromagnetic ID badges.

16.1. Person who is granted with restricted facility entry pass shall also get electromagnetic ID badge. The ownership of ID badges shall be retained by the Company and for the first time ID badge shall be issued free of charge.

16.2. Re-issue of badge (including temporary) to the employees of the Company in case of loss or damage sooner than three years after its initial issue and loss or physical damage to the

badge issued to contractors (service providers), carriers, clients, visitors and other persons, irrespective of the period of use, shall be subject to a penalty of 14 (fourteen) EUR net of VAT per badge.

16.3. ID badges shall be issued and replaced in the Pass Office of the Company. In individual cases, they may be issued in security control posts of security facilities.

16.4. ID badges shall be handed in to persons only against the presentation of personal identification document.

16.5. Any loss of ID badge must be immediately reported by tel.:+370 443 92500 or e-mail: **leidimai@orlenlietuva.lt** (on working hours) or tel. +370 443 92392 (on non-working hours).

16.6. ID badges must be returned to Pass Office immediately upon expiry or as soon as works under concluded contracts are completed, whichever is earlier. Clients, visitors, other persons may return their one-off visit ID badges in security control posts of security facilities when leaving.

16.7. Employees of the Company who leave their ID badges behind and come to work may, against the presentation of personal identification document to the Pass Office or security control post of respective facility, get temporary ID badge which is valid for one day. After expiry of this term, ID badge must be immediately returned to Pass Office.

16.8. ID badge which loses its functionality due to natural wear-and-tear or internal failure is replaced free of charge.

16.9. Any lost-and-found ID badges must be immediately returned to the Pass Office of the Company.

17. Expiry, suspension, withdrawal of entry passes.

17.1. Entry pass shall expire:

17.1.1. Upon termination of employment contract by the Company with employee as reported to the Pass Office by Human Resources Department;

17.1.2. Upon expiry, termination of contract with contractor, service provider. Termination must be reported to the Pass Office by an employee of the Company who administrates respective contract;

17.1.3. Upon receipt of respective notice from legal entity that was provided with entry passes on the basis of request presented by it. Any cases which require withdrawal of entry passes (early completion of works or services under concluded contracts, termination of contract with employee, subcontractor, etc.) must be immediately reported by the legal entity to the Company.

17.2. Entry pass shall be suspended:

17.2.1. In case of violation of internal order of the Company, including requirements of conduct set forth herein;

17.2.2. In case of transfer of personal ID badge to other person or use of ID badge issued to other person;

17.2.3. In case of declaration by the Company of idle time of an employee;

17.2.4. In case of emergency or extraordinary situation, by the decision of the Director of Control and Security of the Company or responsible person of Control and Security Department assigned by him, access to security facilities of the Company by the employees of contractors, clients, visitors and other persons as well as employees of the Company may be temporarily restricted.

17.3. Entry pass shall be withdrawn:

17.3.1. To persons who in the Company and/or its territory commit an offence (including actions related to the Company) which has the signs of theft, fraud, misappropriation or embezzlement, unlawful remuneration, who disclose confidential information of the Company, personal data processed by the Company, unlawfully collect information containing Company's secret, confidential information, violate requirements concerning the conflict of private interests and the interests of the Company, commit any act which according to procedures of the Company and legal acts are treated as corrupt.

17.4. Decision regarding re-activation of the suspended (or withdrawn) entry passes shall be made by the General Director or Director of Control and Security of the Company depending on the severity of violation and its impact on the business, results and image of the Company, after the threats of emergency or extraordinary situation become extinct.

18. Issue of photography and/or filming permits.

18.1. Photography and filming (including aerial photography and filming) in security facilities of the Company is allowed only upon permission by the Director of Control and Security of the Company or responsible person of Control and Security Department assigned by him.

18.2. Photography and/or filming permits shall be issued upon the presentation of request which must contain such details as the name, surname, position of requestor, name of legal entity, object, purpose, method and period of photography and/or filming (form of request is provided in Annex 8 hereto). Request may be e-mailed to: kontrolesirsaugoskyrius@orlenlietuva.lt. Decision to satisfy/reject the request shall be sent to e-mail specified in the request.

18.3. Issued photography and/or filming permits shall be registered in the data base of Control and Security Department.

18.4. Control over photography and/or filming in the territory of security facility shall be performed by the employees of entity providing security services to the Company.

19. Use of unmanned aerial vehicles (UAV).

19.1. Any use of UAVs in or above security facilities (territories) of the Company is strictly forbidden with the exclusion of cases set forth in these Regulations and contracts concluded with the Company.

20. Additional requirements for vehicle entry into security facilities (territories).

20.1. Vehicle entering security facilities (territories) of the Company must be fitted with fire extinguisher, otherwise entry shall be rejected. Decision regarding admission of such vehicle shall be made by responsible employee of Quality, Labor Safety and Environmental Control Subdivision.

20.2. Freight or special vehicles of contractors entering security facilities of the Company must be marked with contractor's logo/name (or contractor's logo/name must be clearly printed out and placed on the front panel of vehicle). When freight or special vehicle of one contractor on the basis of lease or other grounds is used by another contractor, the name/logo of actual user must be clearly printed out and placed on the front panel of vehicle.

20.3. During the entry and presence in security facilities (territories) of the Company all established traffic rules, signs, road markings, safe speed requirements must be observed. Violation of such rules and requirements is subject to liability established by law and/or contracts concluded with the Company.

CHAPTER V CARRIAGE OF TANGIBLE ASSETS

21. General requirements.

21.1. Tangible assets must be accompanied by shipment document which in cases established herein must be presented in security control posts of the Company together with: (i) weighing certificate; or (ii) measuring report.

21.2. Shipment documents are executed by authorized employees. Authorized employees are entitled to execute shipment documents for entity they represent only.

21.3. Tangible asset shipment documents shall be presented to the employee of security control post of the Company who shall sign and register them as prescribed by the Company.

21.4. In case of emergency or extraordinary situation, upon agreement with the Director of Control and Security or employee of Control and Security Department assigned by him, requirements applicable to formalization of shipment documents as established herein may be disregarded.

21.5. Carriage of portable work tools, individual-purpose assets owned by the Company or any other natural and legal persons and business gifts (according to procedure of the Company) by the employees of the Company does not require any shipment documents.

21.6. Shipment documents for the carriage of materials shall be issued separately from respective shipment documents of other carried tangible assets.

21.7. Shipment documents for the carriage of materials must contain the following additional details: (i) contract ref. number; (ii) Company's work order ref. number; or (iii) work release ref. number, irrespective of who is carrying such materials. If materials are carried by the Company's contractors (service providers) or their subcontractors and other legal entities renting premises within security facilities of the Company, in shipment documents in addition to contract ref. number it must be specified whether the contract is concluded with the Company or other legal entity or natural person. Next to contract ref. number it must be specified '**OL contract**' if the contract is concluded with the Company or '**subcontract**' if the contract is concluded with other legal entity or natural person.

21.8. For the carriage of equipment which is a component indivisible part of special vehicles of the Company's emergency or special services the list of equipment of special vehicles shall be issued (form is provided in Annex 4 hereto). This list shall be approved by the manager of respective legal entity and agreed with the Director of Control and Security of the Company or responsible person of Control and Security Department assigned by him. The list shall remain effective until the change of composition of such equipment however no longer than until the end of current calendar year.

21.9. When the quantity of carried tangible assets can be determined only by weighing, they shall be weighed using the scales of the Company's refinery. After weighing, weighing certificate shall be issued which must be attached to shipment documents of such tangible assets.

21.10. When the quantity of carried tangible assets can be determined only by measuring, they shall be measured and documented in measuring report which must be attached to shipment documents of such tangible assets.

21.11. Company's contractors (service providers) or their subcontractors and other legal entities renting premises within security facilities of the Company must present the lists of their employees authorized to issue and sign shipment documents to Control and Security Department of the Company.

21.12. For carriage of samples of refinery products, feedstock or other substances from one to other territory or inside the refinery of the Company shipment documents shall not be required provided that the list of employees carrying such samples approved by the decree of the head of organizational unit responsible for such carriage has been submitted to the Control and Security Department of the Company.

22. Carriage of tangible assets into security facilities of the Company.

22.1. Tangible assets may be carried into the territories of security facilities of the Company against the presentation of respective shipment document where the territory of the Company's security facility is indicated as the place of delivery and unloading and the consignee of tangible assets is: (i) the Company; (ii) Company's contractor (service provider) or subcontractor; (iii) legal entity that rents premises in the territory of security facility of the Company.

22.2. For tangible assets carried into the Company's territory from non-EU member states, CMR waybill stamped by Tax Administration and Customs Procedures Department of the Company must be presented at security control post.

22.3. When transporting/carrying tanks (containers) with fuel, samples of petroleum products for analysis respective shipment document must be presented at security control post.

22.4. Shipment documents shall not be required for tangible assets normally kept in vehicles, such as personal belongings, small quantities (emergency supplies) of vehicle consumables (except for fuel) or minor spare parts, usual tools and means for vehicle repair and servicing and other statutory supplies to be kept in vehicles. For tangible assets that are not mentioned in this paragraph the carrier shall present a shipment document and in cases set forth herein shall agree such carriage with the senior of security shift on duty.

22.5. It is forbidden to carry into the Company's security facilities any parcels and correspondence addressed to private persons, Company's contractors (service providers), legal entities that rent premises in the territories of security facilities of the Company unless agreed with the Director of Control and Security of the Company or responsible person of Control and Security Department assigned by him. Parcels and correspondence addressed to the Company shall be carried into the territory of Central Warehouse of the refinery.

22.6. For transportation of construction trailers into the Company's territory, a request in the form established herein (Annex 3) shall be required in addition to shipment documents. Request shall be made in two originals and agreed with the head of organizational unit where such trailer will be kept and the responsible employee of Mažeikiai Fire and Rescue Board for Protection of Facilities.

23. Carriage of tangible assets from security facilities of the Company.

23.1. Tangible assets may be carried from security facilities of the Company only against the presentation of respective shipment document at security control post signed by an authorized employee.

23.2. Shipment documents for the carriage of tangible assets from the territory of the Company must be agreed in writing with the Company's project manager who supervises the execution of respective order (contract) or other employee who is authorized to sign handover and acceptance statements. With his/her signature on shipment document such responsible employee of the Company confirms that materials have been actually used up in execution of respective order as required and remaining ones will not be used any more or that materials are subject to temporary removal for treatment, etc. In case of carriage of materials that do not belong to the Company and are not related to execution of contracted works or provision of services for the Company, this must be specified accordingly by the authorized employee of the Company in shipment document.

23.3. For rail carriage of crude oil and oil products from the territory of the Company weighing certificate or measuring report must be presented at security control post.

23.4. For road carriage of oil products from the territory of oil refinery of the Company respective shipment document must be presented at security control post of the terminal for loading light petroleum products onto road tankers.

23.5. For carriage of minor assembly materials or spare parts, domestic chemicals and toiletries, office supplies, IT and communication equipment including their spare parts or servicing materials from the territories of the Company shipment documents shall not be required provided that the list of employees carrying such materials and supplies approved by the decree of the head of unit who supervises these employees or contract with service provider has been presented to Control and Security Department of the Company.

23.6. Scrap metal shall be shipped from the Company's territory under centralized procedure. Shipment and execution of respective documents shall be arranged by responsible employees of the Central Warehouse of the Company.

23.7. The quantity of waste shipped from the territory of security facilities of the Company shall be determined by weighing or application of other quantity determination method where scales are not available and documented in respective quantity determination reports or certificates and waybills. When waste is shipped out by natural persons or legal entities that do not hold contracts concluded with the Company, waste waybill must be agreed with responsible employee of Environmental Department of the Company. For waste, soil, air and water laboratory testing samples in quantities equal to or below 5 kilograms or litres waybill shall not be required.

23.8. Original documents of the Company shall be carried from security facilities of the Company only if this is made for business needs of the Company. Carriage of documents shall be registered in the logbook of security staff of security control post.

24. Shipment of empty road tanks from oil refinery of the Company.

24.1. Before shipment from oil refinery of the Company, empty road tanks must be weighed. After weighing, weighing certificate shall be issued, one original copy of which must be presented to security control post.

24.2. Weighed road tanks must depart no later than within 15 minutes after recorded time of weighing. If empty road tank stays in the territory for more than 15 minutes after its weighing, it shall be returned for repeated weighing.

24.3. Container weight of respective road tank at the moment of weighing cannot exceed 200 kg of its container average weight. This condition shall apply to those road tanks only that have their weights included in the list of road tankers with average weight.

24.4. If container weight of respective road tank exceeds 200 kg of its average container weight, the tank shall be checked in detail by security staff and only afterwards allowed to depart from territory of oil refinery.

24.5. Procedure of entry of average container weights of road tanks into the data system shall be established by the head of organizational unit which carries out truck weighing operations.

25. Movement of empty wagons and tank-cars from the territory of oil refinery of the Company.

25.1. Movement of empty wagons, except for tank-cars, from the territory of oil refinery of the Company must be reported to security staff on duty by phone: + 370 443 92392. Security staff shall check if wagons are empty and only afterwards shall give permission to move them from the territory of security facility of the Company.

25.2. Before empty tank-cars are moved from the territory of oil refinery of the Company, they shall be weighed. After weighing, weighing certificates shall be presented to security staff. This provision shall not apply for movement of tank-cars from one to other location within the territory of oil refinery of the Company.

25.3. If at the time of movement from the refinery the weight of tank-car exceeds 500 kg, i.e. is greater than determined at the time of weighing when moved into the territory of the refinery, security staff shall check it in detail. If any residue of product or any other tangible asset is found in the tank-car, the movement of tank-car from the territory shall be halted and investigation of actual circumstances of such event shall be initiated.

25.4. If after weighing tank-cars: (i) have not been moved from the territory of oil refinery of the Company immediately; or (ii) more than 3 hours passed since weighing and they had not been sealed during weighing, the tank-cars shall be re-weighed and only afterwards moved from the territory.

25.5. If petroleum products have not been loaded into tank-cars in petroleum product loading racks, they must be checked in the presence of security staff and employees responsible for loading. Employee responsible for loading shall issue a free-form tank-car checkup report to be signed by employees who checked the tank-cars.

CHAPTER VI

REQUIREMENTS FOR CONDUCT ON THE ARRIVAL, DEPARTURE AND PRESENCE IN SECURITY FACILITIES OF THE COMPANY

25.6. The holder of the Company's pass and ID badge for entry into security facilities of the Company must secure and use ID badge only for entry into and exit from security facilities of the Company.

25.7. It is forbidden to transfer ID badge to any other person and to use ID badges issued to other persons.

25.8. Entry and exit is allowed only via security control posts for pedestrians. During entry/exit via security control posts equipped with ID badge readers it is mandatory to put the badge to a special reader and in places equipped with biometric readers to provide respective

biometric data. On entry into and exit from workplaces which are accessible without passing security control posts, ID badge must be each time put to the readers installed in specially designated points of access control system. Entry or any attempt to enter security facilities of the Company bypassing security control posts or without registration at readers installed in specially designated points of access control system is forbidden.

25.9. If needed, responsible employee of the Company is allowed to take responsible employee of contractor (service provider) to his/her workplace in administrative building within production area of the Company for issue of work permits or other technical issues using own ID badge provided that such responsible employee of contractor (service provider) holds valid pass for entry into production area of the Company. After visit, responsible employee of the Company who took such responsible employee of contractor (service provider) to his/her workplace must further walk responsible employee of contractor (service provider) from administrative building.

25.10. Persons who hold passes for entry into security facilities (territories) of the Company may be present only in such places of these facilities (territories) that are related to the functions performed by them or works executed by them in the Company or, accordingly, to the declared purpose of their visit.

25.11. Clients, visitors, officers and other persons in security facilities (territories) of the Company must be accompanied by the heads of organizational units who invited them or are otherwise related to the purpose of their visit or employees assigned by these heads. If necessary, these heads or employees assigned by them must arrange personal protective equipment for the clients, visitors, officers and other persons.

25.12. Employees of the Company, its contractors (service providers) and subcontractors (including managers) may enter and stay in security facilities of the Company for their job functions only according to pass issued to them/their work schedule and upon expiry of such pass/end of established work time must leave security facility within half-hour. In all other cases entry/exit to/from security facilities of the Company must be agreed: (i) in case of employee of the Company – with his/her direct superior; (ii) in case of contractor (service provider) of the Company – with responsible employee of the Company and responsible manager of contractor (service provider). This provision shall not apply to the Company's administrative officials.

25.13. Persons entering, present in and exiting security facilities of the Company, upon request by security staff, must present ID badge, vehicle entry pass (if entered by vehicle) and personal identification document.

25.14. Persons carrying tangible assets must provide them for checking at security control posts and inside security facilities if requested by security staff. Together with tangible assets respective shipment documents must be presented for checkup as well, unless such are not required according to these Regulations.

25.15. Vehicle under checkup must be stopped in security control post, its trunk and other closed compartments opened, passengers disembarked for the checkup of interior if so requested

by security staff. It is allowed to leave security control post only upon permission by the security staff.

25.16. Security control posts intended for transport only may be passed by the driver and in addition persons escorting the freight or operating special equipment carried or installed in the vehicle however the number of such persons cannot exceed the number of cabin seats of the vehicle. In such cases these persons must register with their ID badges at readers installed in specially designated points of access control system.

25.17. Any activities of the staff of contractors (service providers) or presence in restricted access areas of security facilities of the Company without accompanying employee working in respective facility or assigned by the head of organizational unit that operates this facility is forbidden.

25.18. Any access to as well as presence and work in security facilities of the Company under the influence of alcohol, drugs or toxic substances is prohibited. Carriage of alcoholic beverages is allowed only according to procedure established in the Company and, if such is not in place, upon receipt of permission from the Director of Control and Security of the Company or responsible employee of Control and Security Department assigned by him.

25.19. Smoking within the Company is allowed only in places intended for this purpose, equipped and marked respectively, complying with relevant occupational safety requirements. Smoking in any other places is forbidden.

25.20. It is forbidden to carry and keep personal tools, equipment or devices in the territory of the Company without relevant permission given in prescribed order.

25.21. It is forbidden to carry (or attempt to carry) and keep any guns, ammunition, explosives and other prohibited objects, including but not limited to the ones listed in Annex 2 hereto, in the territory of the Company.

25.22. Without permission obtained as prescribed by these Regulations it is forbidden to take out, to attempt to take out as well as to keep or carry in the territory of the Company any property owned by the Company or other persons including but not limited to vehicles, equipment, tools, products of the Company, substances, materials or products.

25.23. In security facility it is prohibited to keep and use any personal domestic appliances, audio or video players, TV sets without permission of the head of organizational unit, to use personal photo cameras, video cameras, computers and external data carriers without a written permission by the Director of Control and Security or employee of Control and Security Department assigned by him. Cellular phones may be used for communication only and in potentially explosive atmospheres marked with Ex sign cellular phones must be switched off.

25.24. It is forbidden to carry (or to attempt to carry), keep, consume or distribute any narcotic or other psychotropic substances. It is forbidden to consume (or be under influence of) any psychotropic substances with the exclusion of prescribed pharmaceuticals which do not restrict the capability to work.

25.25. In security facilities of the Company it is forbidden to sleep. Any fatigue or ailment which disturbs further safe and efficient performance of work must be immediately reported to co-workers and direct superior or security staff.

25.26. All occupational health and safety procedures and requirements of the Company must be observed.

25.27. In security facilities (territories) of the Company any conduct or action which is understood as aggression, intimidation, menace, sexual or any other type of harassment, taunting, provocation of aggression or physical response, pressing/persistent propagation at work of personal, political, social or religious beliefs unacceptable to others, mobbing are forbidden. Cursing, verbal abuse and action is prohibited. Immoral or indecent conduct is prohibited.

25.28. Any games and disrupting behavior distracting and disturbing work of others are prohibited. Gambling in the Company's area is prohibited.

25.29. Damage to property of Company, contractors or other persons, either by intention or negligence, is prohibited. It is prohibited to leave tangible and intangible assets entrusted by the Company unattended to prevent potential loss or damage.

25.30. It is prohibited to litter and to leave or dispose waste otherwise than prescribed by the Company.

25.31. It is prohibited to take and use any property including but not limited to vehicles, equipment, tools, products, materials owned by the Company, its contractors or other persons without permission of person in charge of them.

25.32. Any distribution of press, literature, advertising, promoting material or any other trade is prohibited unless prior permission by the Director of Control and Security of the Company or employee of Control and Security Department assigned by him is obtained.

25.33. Entry by vehicle into the territory of hazardous facility of the Company without special permit issued by the head of organizational unit which operates it or other authorized employee is prohibited.

25.34. After departure from and during the presence in security facility of the Company ID badges must be protected against misappropriation and unauthorized use by other persons.

CHAPTER VII FINAL PROVISIONS

25.35. Company's employees who violate procedure and requirements established herein shall bear liability prescribed by the laws of the Republic of Lithuania and internal regulatory documents of the Company.

25.36. Other natural and/or legal persons who violate procedure and requirements established herein shall bear liability prescribed by the laws of the Republic of Lithuania and contracts concluded between the parties.

25.37. These Regulations shall be amended or modified accordingly whenever new normative legal acts or internal documents of the Company containing requirements to be taken into account come into effect or existing ones are amended or modified accordingly.

25.38. Responsibility for periodic review and updating of these Regulations, if needed, shall lie with the Director of Control and Security.

SECURITY FACILITIES (TERRITORIES) OF PUBLIC COMPANY ORLEN LIETUVA
